Just a few rewordings. I also made RESRAD BUILD all caps.

FYI, I got a call from the Auxier folks about them needing a surface PRG calculator. They were unaware of the B tools. I just gave them a tutorial. They are going to use the tool in Ohio at the community surrounding Portsmouth Gaseous Diffusion Plant.

fred d.

Please take a look at my comments in the comment boxes of an earlier Navy letter. This is still relevant to the conversation. Note the letter is on 4 pages since I put in page breaks so my comments were still readable.
